

# **The 24th Pacific Rim International Symposium on Dependable Computing (PRDC'19)**

Rihga Royal Hotel Kyoto, Kyoto, Japan

December 1-3, 2019

<http://prdc.dependability.org/2019/>

## **General Chair**

Satoshi Fukumoto, Tokyo Metropolitan U., Japan

## **Program Co-Chairs**

Hirofumi Okamura, Hiroshima University, Japan  
Zheng Zheng, Beihang University, China

## **Local Arrangement Co-Chairs**

Masayoshi Yoshimura, Kyoto Sangyo U., Japan  
Masayuki Arai, Nihon University, Japan

## **Publicity Chair**

Tatsuhiro Tsuchiya, Osaka University, Japan

## **Publications Chair**

Mamoru Ohara, TIRI, Japan

## **Finance Chair**

Masayuki Arai, Nihon University, Japan

## **Program Committee**

TBD

## **Steering Committee**

Yennun Huang, Academia Sinica (Chair)  
Leon Alkalai, California Institute of Technology  
Takashi Nanya, University of Tokyo  
Nobuyasu Kanekawa, Hitachi Research Lab  
Jin Song Dong, National University of Singapore  
Karthik Pattabiraman, University of British Columbia  
Gernot Heiser, University of New South Wales  
Sy-Yen Kuo, National Taiwan University  
Michael Lyu, Chinese University of Hong Kong  
Zhi Jin, Peking University  
Dongseong Kim, The University of Queensland

## **Sponsors (tentative)**

IEEE Computer Society  
Tokyo Metropolitan University  
Hiroshima University  
Kyoto Sangyo University  
Nihon University

## **Call for Papers**

PRDC 2019 is the twenty-fourth event in the series of symposia started in 1989 that are devoted to dependable and fault-tolerant computing. PRDC is recognized as the main event in the Pacific area that covers many dimensions of dependability and fault tolerance, encompassing fundamental theoretical approaches, practical experimental projects, and commercial components and systems. As applications of computing systems have permeated into all aspects of daily life, the dependability of computing systems has become increasingly critical. This symposium provides a forum for countries around the Pacific Rim and other areas of the world to exchange ideas for improving the dependability of computing systems.

Topics of interest include (but not limited to):

- Software aging and rejuvenation
- Safety-critical systems and software
- Architecture and system design for dependability
- Fault-tolerant algorithms and protocols
- Reliability in cloud computing, Internet, and web systems and applications
- Cloud computing security and privacy
- Software defined networks architectures and protocols
- Internet of things architectures, protocols, security and privacy
- Dependability issues in artificial intelligence and its applications
- Dependability issues in computer networks and communications
- Dependability issues in high performance computing
- Dependability issues in real-time systems
- Dependability issues in databases and transaction processing systems
- Dependability issues in cyber-physical systems
- Dependability issues in socio-technical systems

## **Submission and Publication Information**

Manuscripts should be submitted in the following two categories: Regular Papers and Practical Experience Reports. Regular Papers should describe original research (not submitted or published elsewhere) and be not more than 10 pages using IEEE Computer Society camera-ready 8.5"x11" two-column format. Practical Experience Reports (max 6 pages using IEEE format guidelines) should describe an experience or a case study, such as the design and deployment of a system or actual failure and recovery field data. The title page should include a 150-word abstract, five keywords, authors' names and affiliations, and a line specifying whether the submission is a Regular Paper or a Practical Experience Report. The full mailing address, phone, fax, and email address of the corresponding author should be specified.

All submissions must be made electronically (in PDF format) on the submission web site:

<https://www.easychair.org/conferences/?conf=prdc2019>

Papers will be reviewed internationally and selected based on their originality, significance, relevance, and clarity of presentation. All accepted papers will be published by IEEE Computer Society Press (EI Indexed). One outstanding paper will be selected to receive the Best Paper Award.

## **Important Dates**

**Submission:** July 15, 2019

**Notification of Acceptance:** August 15, 2019

## **Call for Fast Abstracts**

Fast Abstracts are short papers describing in-progress, novel, or controversial ideas. The details about this category will be announced soon.
